# EQ EnviroQuiet®

## RECLASSIFIED | 4.0 | 5.0 | 6.0

## ONE-STEP INSTALLATION

LVT WITH PERMANENTLY ATTACHED
ACOUSTICAL UNDERLAYMENT

EnviroQuiet 4.0 | 5.0 | 6.0 consists of the same formulation of our original product line, with the addition of a 4mm option. The new classification structure makes it easy to choose the gauge of your LVT, with multiple selections for the attached underlayment.

## ONE COST.

Our triple patented EnviroQuiet LVT technology is based on the formulation of an acoustic bonded rubber backing to each individual plank or tile.

## ONE INSTALLATION.

A 2mm or 3mm sound reducing underlayment is permanently attached during the manufacturing process, so it can installed as one fully integrated product.

## ONE SOLUTION.

EnviroQuiet is a singular answer to the end use community, eliminating any issues that can occur when installing LVT over a traditional sound pad.

EnviroQuiet is a simple sound solution that offers infinite design choices and endless possibilities.  Choose a pattern from our exclusive Wood, Stone or Abstract Collections, and select the exact specifications you need for your next project.

# IIC Rating up to 74*

* IIC Ratings vary based on the floor/ceiling assembly. Please contact FloorFolio for technical data for your floor/ceiling assembly.

## EnviroQuiet® 4.0

### 4mm Thick | 8 or 12 mil Wear Layer

EnviroQuiet 4.0 is composed of 2mm LVT permanently affixed to a 2mm thick acoustical underlayment. The 8 mil clear wear layer provides long lasting durability in residential areas, making it a great choice for multi-family and student housing. Upgrade to a 12 mil wear layer for increased durability. EnviroQuiet 4.0 is specifically engineered for wood truss systems.

---

## EnviroQuiet® 5.0

### 5mm Thick | 8 or 12 mil Wear Layer

EnviroQuiet 5.0 takes our one-step installation up a notch with 2mm LVT manufactured to a 3mm thick acoustical underlayment. The wear layer can be ordered in 8 mil or 12 mil, and our attached underlayment is offered in Standard or Premium grade depending on the area of installation. EnviroQuiet 5.0 is designed for both wood truss and concrete systems.

---

## EnviroQuiet® 6.0

### 6mm Thick | 22 mil Wear Layer | Commercial

EnviroQuiet 6.0 is our commercial grade 3mm LVT affixed to a 3mm thick acoustical underlayment providing the highest density in the EnviroQuiet line. With a 22 mil wear layer, this durable all-in-one flooring solution is ideal for high traffic commercial areas such as hospitals, retail locations, hotels and restaurants. EnviroQuiet 6.0 is formulated for installation over wood truss or concrete systems.

# RIGIDHYBRID

## THE NEXT GENERATION OF RIGID FLOORS

FloorFolio's Rigid Hybrid LV T is a quiet, ultra-light & water-resistant floating floor with a highly stable core that allows for **INSTANT INSTALL**™.

# LAKEHOUSE

## COLLECTION

Lake House features a customized wood grain texture, making it one of the most dynamic collections exclusively offered by FloorFolio. Lake House provides an essence of beauty layered in multiple earth tones, dark hues and grey shades. Each 24" square tile creates a serene visual of parallel wood planks outlined by a border of aged wood, designed to be quarter-turned during installation.
